

STRATEGIC REVENUE CYCLE ASSESSMENT ANESTHESIA CLAIMS OPTIMIZATION

The Anchor Team partnered with a large academic organization to address issues within their Anesthesia Billing workflows. After the initial assessment, Anchor completed a 12 week rapid implementation of new Epic configuration that resulted in improved metrics.

TARGET OUTCOMES

- » Improve coder workflow
- » Compliance with payor requirements
- » Increase first pass payment rates & decrease denials

PROJECT SCOPE

1. Audit existing Epic setup for anesthesia billing
2. Finalize payor requirements
3. Complete anesthesia modifier build and automation
4. Identify other areas of opportunity within claims and anesthesia

OUR RESULTS

Back-End Automation

- » Greater accuracy
- » Improved compliance
- » Increased coder efficiency
